

Wood Window Workshop

BASICS WORKSHOP

(Saturday only, from 8:00am-4:00pm)

The workshop focuses on what's known as the Mechanical Makeover, beginning with an introduction and demonstration on a double-hung window to explain the various parts and processes. Participants will then be guided through hands-on experience to understand the basics of getting a window working again. These basics will introduce both tools and concepts necessary to disassemble, replace sash rope, reconnect the weights and reassemble the window so that it functions properly from the foundation to every other aspect of window restoration.

Early Registration: \$65 AIA members | \$75 non-AIA members

Registration: \$85 AIA members | \$95 non-AIA members

MICROSKILLS WORKSHOP

(Saturday and Sunday, from 8:00am-4:00pm)

In addition to attending the Basics Workshop on Saturday, participants will be introduced to the tools and MicroSkills of window restoration on Sunday. These include proper tools and techniques window restorers use to quickly strip sash to bare wood and remove the glass with minimal breakage. Participants will be shown how to safely cut glass, bed and reglaze a sash. Participants will learn various other MicroSkills as each window's context determines and time allows.

Early Registration: \$150 AIA members | \$200 non-AIA members

Registration: \$200 AIA members | \$250 non-AIA members

EARLY REGISTRATION THROUGH SEPTEMBER 20, 2021.

SPACE IS LIMITED. VISIT AIAHOUSTON.ORG FOR MORE INFORMATION
